

# Types and Materials of Exterior Resin Parts

NOTE: A standard symbol is stamped on the side under of each resin part to shown the type of material used.

Example:

No.	Part Name	Material	Repair procedures
①	Headlight Lid	PA6/PPE-M (Polyamide/Polyphenyen ether)	see page <a href="#">9-22</a>
②	Front and Rear Bumpers	PBT-P (Polybutylene terephthalate)	see page <a href="#">9-3</a>
③	Front and Rear Skirts	PP (Polypropylene)	see page <a href="#">9-13</a>
④	Door Mirror Housing	ABS (Acrylonitrile butadiene styrene)	see page <a href="#">9-26</a>
⑤	Side Sill Panel	PA6/PPE-M (Polyamide/Polyphenylene ether)	see page <a href="#">9-22</a>
⑥	Trunk Lid Spoiler	UP-G (Polyester unsaturated thermoset)	see page <a href="#">9-22</a>
⑦	Fuel Lid	PA6/PPE-M (Polyamide/Polyphenylene ether)	see page <a href="#">9-22</a>
