

## Types and Materials of Exterior Resin Parts

NOTE: A standard symbol is stamped on the underside of each resin part to show the type of material used.

Example:  
HONDA  
>PP<

NO.	Part Name	Material	Replacement
①	Headlight lid	PA6/PPE-M Polyamide/Polyphenylene ether	see <a href="#">section 23</a>
②	Front bumper	PBT-P Polybutylene terephthalate	see page <a href="#">20-58</a>
③	Front and rear skirts	PP Polypropylene	see pages <a href="#">20-59</a> , <a href="#">20-61</a>
④	Mirror	ABS Acrylonitrile butadiene styrene	see page <a href="#">20-20</a>
⑤	Side sill panel	PA6/PPE-M Polyamide/Polyphenylene ether	see page <a href="#">20-71</a>
⑥	Trunk lid spoiler	UP-G Polyster unsaturated thermoset	see page <a href="#">20-66</a>
⑦	Rear bumper	PBT-P Polybutylene terephthalate	see page <a href="#">20-60</a>
⑧	Fuel filler lid	PA6/PP-E Polyamide/Polyphenylene ether	see page <a href="#">20-68</a>
⑨	Washer Tank	PP Polypropylene	see page <a href="#">20-59</a>
