

# Engine Oil

## Inspection

- 1. Park the vehicle on level ground, and turn off the engine. Allow the oil a few minutes to drain back into the oil pan so the dipstick will show the actual level.
- 2. Make certain that the oil level indicated on the dipstick is between the upper and lower marks.
- 3. If the level has dropped close to the lower mark, add oil until it reaches the upper mark.

**CAUTION:** Insert the dipstick carefully to avoid bending it.
